

**Seatex**<sup>®</sup>  
Moulded Furniture

**ART WITH AN  
ATTITUDE**

**SEATEX**, as the name suggests was born on 11th October, 2018 to provide seating solution for the huge middle-class population as well as the institutional market.

Plastic moulded furniture industry has been in existence for more than 30 years in India.

And we have been associated in this industry as professionals for almost the same period. we have travelled in the micro interiors of the country and created a network in every remote, village and town. We have first hand knowledge of the requirements of the customer. We also have a team of professionals in marketing and technical department, who have more than 2 decades of experience in plastic industry.

With so much of experience and confidence we decided to start our own brand and so **SEATEX** was born. So despite being a relatively new company, we have a wealth of experience.

Even though the industry is in existence for such a long time, we realized that there is tremendous scope for improvement, development and creativity in the industry.

Still traditional, old fashioned designs are existing. There is hardly any focus to develop new designs, colors and product category.

At **SEATEX**, we have taken upon ourselves the responsibility to develop new designs, colors, product category etc.

And in a short period of 2 & half years, our company has developed more than 40 designs as many as 15 colors in different product categories. We have doubled our capacity in our Ratlam factory during this short period. Also we have started our new factory in Khurda Bhubneshwar in August, 2020, to cater to the eastern part of the country.

Our company has also plans to diversify into household plastic products like buckets, drums, dustbins, containers and other home & office products.

Within a short span, we have covered 18 states of India and we are committed to have a pan India presence. Our company has already started its depot in Guwahati, to capture to the north east part of India. And we have plans to start our depots in Kolkata, Patna & Lucknow in near future.

Our journey has well begun and we are committed to serve our customers with high quality products. Our mission is to fulfill our customer's requirement and satisfy their needs.

The basic fundamentals of transparency, integrity and hard work will not be compromised in achieving our goals.
